TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and
distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the
copyright
owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other
entities
that control, are controlled by, or are under common control with that
entity.
For the purposes of this definition, "control" means (i) the power,
direct or
indirect, to cause the direction or management of such entity, whether
by
contract or otherwise, or (ii) ownership of fifty percent (50%) or
more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising
permissions
granted by this License.

"Source" form shall mean the preferred form for making modifications,
including
but not limited to software source code, documentation source, and
configuration
files.

"Object" form shall mean any form resulting from mechanical
transformation or
translation of a Source form, including but not limited to compiled
object code,
generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made
available under the License, as indicated by a copyright notice that is included
in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is
based on (or derived from) the Work and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole, an
original work of authorship. For the purposes of this License, Derivative Works
shall not include works that remain separable from, or merely link (or bind by
name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version
of the Work and any modifications or additions to that Work or Derivative Works
thereof, that is intentionally submitted to Licensor for inclusion in the Work by
the copyright owner or by an individual or Legal Entity authorized to submit on
behalf of the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent to the
Licensor or its representatives, including but not limited to communication on
electronic mailing lists, source code control systems, and issue tracking systems
that are managed by, or on behalf of, the Licensor for the purpose of discussing
and improving the Work, but excluding communication that is conspicuously marked
or otherwise designated in writing by the copyright owner as "Not a
Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of
whom a Contribution has been received by Licensor and subsequently incorporated
within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of

this
License, each Contributor hereby grants to You a perpetual, worldwide,
non-exclusive, no-charge, royalty-free, irrevocable copyright license
to
reproduce, prepare Derivative Works of, publicly display, publicly
perform,
sublicense, and distribute the Work and such Derivative Works in
Source or Object
form.

3. Grant of Patent License. Subject to the terms and conditions of
this License,
each Contributor hereby grants to You a perpetual, worldwide, non-
exclusive,
no-charge, royalty-free, irrevocable (except as stated in this
section) patent
license to make, have made, use, offer to sell, sell, import, and
otherwise
transfer the Work, where such license applies only to those patent
claims
licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with
the Work to
which such Contribution(s) was submitted. If You institute patent
litigation
against any entity (including a cross-claim or counterclaim in a
lawsuit)
alleging that the Work or a Contribution incorporated within the Work
constitutes
direct or contributory patent infringement, then any patent licenses
granted to
You under this License for that Work shall terminate as of the date
such
litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work
or
Derivative Works thereof in any medium, with or without modifications,
and in
Source or Object form, provided that You meet the following
conditions:

   a. You must give any other recipients of the Work or Derivative
Works a copy of
      this License; and

   b. You must cause any modified files to carry prominent notices
stating that
      You changed the files; and

c. You must retain, in the Source form of any Derivative Works that You
      distribute, all copyright, patent, trademark, and attribution notices from
      the Source form of the Work, excluding those notices that do not pertain to
      any part of the Derivative Works; and

   d. If the Work includes a "NOTICE" text file as part of its distribution, then
      any Derivative Works that You distribute must include a readable copy of the
      attribution notices contained within such NOTICE file, excluding those
      notices that do not pertain to any part of the Derivative Works, in at least
      one of the following places: within a NOTICE text file distributed as part of
      the Derivative Works; within the Source form or documentation, if provided
      along with the Derivative Works; or, within a display generated by the
      Derivative Works, if and wherever such third-party notices normally appear.
      The contents of the NOTICE file are for informational purposes only and do
      not modify the License. You may add Your own attribution notices within
      Derivative Works that You distribute, alongside or as an addendum to the
      NOTICE text from the Work, provided that such additional attribution notices
      cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may
provide additional or different license terms and conditions for use,
reproduction, or distribution of Your modifications, or for any such
Derivative Works as a whole, provided Your use, reproduction, and
distribution of the Work otherwise complies with the conditions stated
in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any
Contribution intentionally submitted for inclusion in the Work by You to the
Licensor shall be under the terms and conditions of this License, without any
additional terms or conditions. Notwithstanding the above, nothing herein shall
supersede or modify the terms of any separate license agreement you

may have
executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names,
trademarks, service marks, or product names of the Licensor, except as required
for reasonable and customary use in describing the origin of the Work and
reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS
OF ANY KIND, either express or implied, including, without limitation,
any warranties or conditions of TITLE, NON-INFRINGEMENT,
MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely
responsible for determining the
appropriateness of using or redistributing the Work and assume any risks
associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agreed to in
writing, shall any Contributor be liable to You for damages, including any
direct, indirect, special, incidental, or consequential damages of any character
arising as a result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill, work stoppage,
computer failure or malfunction, or any and all other commercial damages or
losses), even if such Contributor has been advised of the possibility of such
damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations and/or
rights consistent with this License. However, in accepting such

obligations, You
may act only on Your own behalf and on Your sole responsibility, not
on behalf of
any other Contributor, and only if You agree to indemnify, defend, and
hold each
Contributor harmless for any liability incurred by, or claims asserted
against,
such Contributor by reason of your accepting any such warranty or
additional
liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following
boilerplate
notice, with the fields enclosed by brackets "[]" replaced with your
own
identifying information. (Don't include the brackets!) The text should
be
enclosed in the appropriate comment syntax for the file format. We
also recommend that a file or class name and description of purpose be
included on the same "printed page" as the copyright notice for easier
identification within
third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and
distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the
copyright
owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other
entities
that control, are controlled by, or are under common control with that
entity.
For the purposes of this definition, "control" means (i) the power,
direct or
indirect, to cause the direction or management of such entity, whether
by
contract or otherwise, or (ii) ownership of fifty percent (50%) or
more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising
permissions
granted by this License.

"Source" form shall mean the preferred form for making modifications,

including
but not limited to software source code, documentation source, and configuration
files.

"Object" form shall mean any form resulting from mechanical transformation or
translation of a Source form, including but not limited to compiled object code,
generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made
available under the License, as indicated by a copyright notice that is included
in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is
based on (or derived from) the Work and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole, an
original work of authorship. For the purposes of this License, Derivative Works
shall not include works that remain separable from, or merely link (or bind by
name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version
of the Work and any modifications or additions to that Work or Derivative Works
thereof, that is intentionally submitted to Licensor for inclusion in the Work by
the copyright owner or by an individual or Legal Entity authorized to submit on
behalf of the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent to the
Licensor or its representatives, including but not limited to communication on
electronic mailing lists, source code control systems, and issue tracking systems
that are managed by, or on behalf of, the Licensor for the purpose of discussing
and improving the Work, but excluding communication that is conspicuously marked

or otherwise designated in writing by the copyright owner as "Not a
Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of
whom a Contribution has been received by Licensor and subsequently
incorporated
within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
this
License, each Contributor hereby grants to You a perpetual, worldwide,
non-exclusive, no-charge, royalty-free, irrevocable copyright license
to
reproduce, prepare Derivative Works of, publicly display, publicly
perform,
sublicense, and distribute the Work and such Derivative Works in
Source or Object
form.

3. Grant of Patent License. Subject to the terms and conditions of
this License,
each Contributor hereby grants to You a perpetual, worldwide, non-
exclusive,
no-charge, royalty-free, irrevocable (except as stated in this
section) patent
license to make, have made, use, offer to sell, sell, import, and
otherwise
transfer the Work, where such license applies only to those patent
claims
licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with
the Work to
which such Contribution(s) was submitted. If You institute patent
litigation
against any entity (including a cross-claim or counterclaim in a
lawsuit)
alleging that the Work or a Contribution incorporated within the Work
constitutes
direct or contributory patent infringement, then any patent licenses
granted to
You under this License for that Work shall terminate as of the date
such
litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work
or
Derivative Works thereof in any medium, with or without modifications,
and in
Source or Object form, provided that You meet the following

conditions:

   a. You must give any other recipients of the Work or Derivative
Works a copy of
      this License; and

   b. You must cause any modified files to carry prominent notices
stating that
      You changed the files; and

   c. You must retain, in the Source form of any Derivative Works that
You
      distribute, all copyright, patent, trademark, and attribution
notices from
      the Source form of the Work, excluding those notices that do not
pertain to
      any part of the Derivative Works; and

   d. If the Work includes a "NOTICE" text file as part of its
distribution, then
      any Derivative Works that You distribute must include a readable
copy of the
      attribution notices contained within such NOTICE file, excluding
those
      notices that do not pertain to any part of the Derivative Works,
in at least
      one of the following places: within a NOTICE text file distributed
as part of
      the Derivative Works; within the Source form or documentation, if
provided
      along with the Derivative Works; or, within a display generated by
the
      Derivative Works, if and wherever such third-party notices
normally appear.
      The contents of the NOTICE file are for informational purposes
only and do
      not modify the License. You may add Your own attribution notices
within
      Derivative Works that You distribute, alongside or as an addendum
to the
      NOTICE text from the Work, provided that such additional
attribution notices
      cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may
provide additional or different license terms and conditions for use,
reproduction, or distribution of Your modifications, or for any such
Derivative Works as a whole, provided Your use, reproduction, and
distribution of the Work otherwise complies with the conditions stated
in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any
Contribution intentionally submitted for inclusion in the Work by You to the
Licensor shall be under the terms and conditions of this License, without any
additional terms or conditions. Notwithstanding the above, nothing herein shall
supersede or modify the terms of any separate license agreement you may have
executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names,
trademarks, service marks, or product names of the Licensor, except as required
for reasonable and customary use in describing the origin of the Work and
reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS
OF ANY KIND, either express or implied, including, without limitation,
any warranties or conditions of TITLE, NON-INFRINGEMENT,
MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely
responsible for determining the
appropriateness of using or redistributing the Work and assume any risks
associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agreed to in
writing, shall any Contributor be liable to You for damages, including any
direct, indirect, special, incidental, or consequential damages of any character
arising as a result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill, work stoppage,
computer failure or malfunction, or any and all other commercial damages or
losses), even if such Contributor has been advised of the possibility

of such
damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations and/or
rights consistent with this License. However, in accepting such obligations, You
may act only on Your own behalf and on Your sole responsibility, not on behalf of
any other Contributor, and only if You agree to indemnify, defend, and hold each
Contributor harmless for any liability incurred by, or claims asserted against,
such Contributor by reason of your accepting any such warranty or additional
liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following boilerplate
notice, with the fields enclosed by brackets "[]" replaced with your own
identifying information. (Don't include the brackets!) The text should be
enclosed in the appropriate comment syntax for the file format. We
also recommend that a file or class name and description of purpose be
included on the same "printed page" as the copyright notice for easier
identification within
third-party archives.

Mozilla Public License
Version 2.0
=====================

1. Definitions

   1.1. "Contributor"

   means each individual or legal entity that creates, contributes to
the creation
   of, or owns Covered Software.

   1.2. "Contributor Version"

   means the combination of the Contributions of others (if any) used
by a
   Contributor and that particular Contributor's Contribution.

   1.3. "Contribution"

   means Covered Software of a particular Contributor.

   1.4. "Covered Software"

   means Source Code Form to which the initial Contributor has attached
the notice
   in Exhibit A, the Executable Form of such Source Code Form, and
Modifications
   of such Source Code Form, in each case including portions thereof.

   1.5. "Incompatible With Secondary Licenses"

   means

      a. that the initial Contributor has attached the notice described
in Exhibit B
         to the Covered Software; or

      b. that the Covered Software was made available under the terms
of version
         1.1 or earlier of the License, but not also under the terms of
a Secondary
         License.

   1.6. "Executable Form"

means any form of the work other than Source Code Form.

1.7. "Larger Work"

means a work that combines Covered Software with other material, in
a separate file or files, that is not Covered Software.

1.8. "License"

means this document.

1.9. "Licensable"

means having the right to grant, to the maximum extent possible,
whether at the time of the initial grant or subsequently, any and all
of the rights conveyed
  by this License.

1.10. "Modifications"

means any of the following:

    a. any file in Source Code Form that results from an addition to,
deletion
       from, or modification of the contents of Covered Software; or

    b. any new file in Source Code Form that contains any Covered
Software.

1.11. "Patent Claims" of a Contributor

  means any patent claim(s), including without limitation, method,
process, and
  apparatus claims, in any patent Licensable by such Contributor that
would be
  infringed, but for the grant of the License, by the making, using,
selling,
  offering for sale, having made, import, or transfer of either its
Contributions
  or its Contributor Version.

1.12. "Secondary License"

  means either the GNU General Public License, Version 2.0, the GNU
Lesser
  General Public License, Version 2.1, the GNU Affero General Public
License,
  Version 3.0, or any later versions of those licenses.

1.13. "Source Code Form"

means the form of the work preferred for making modifications.

   1.14. "You" (or "Your")

   means an individual or a legal entity exercising rights under this
License. For
   legal entities, "You" includes any entity that controls, is
controlled by, or
   is under common control with You. For purposes of this definition,
"control"
   means (a) the power, direct or indirect, to cause the direction or
management
   of such entity, whether by contract or otherwise, or (b) ownership
of more than
   fifty percent (50%) of the outstanding shares or beneficial
ownership of such
   entity.

2. License Grants and Conditions

   2.1. Grants

   Each Contributor hereby grants You a world-wide, royalty-free, non-
exclusive
   license:

     a. under intellectual property rights (other than patent or
trademark)
        Licensable by such Contributor to use, reproduce, make
available, modify,
        display, perform, distribute, and otherwise exploit its
Contributions,
        either on an unmodified basis, with Modifications, or as part of
a Larger
        Work; and

     b. under Patent Claims of such Contributor to make, use, sell,
offer for sale,
        have made, import, and otherwise transfer either its
Contributions or its
        Contributor Version.

   2.2. Effective Date

   The licenses granted in Section 2.1 with respect to any Contribution

become
   effective for each Contribution on the date the Contributor first
distributes
   such Contribution.

   2.3. Limitations on Grant Scope

   The licenses granted in this Section 2 are the only rights granted
under this
   License. No additional rights or licenses will be implied from the
distribution
   or licensing of Covered Software under this License. Notwithstanding
   Section 2.1(b) above, no patent license is granted by a Contributor:

      a. for any code that a Contributor has removed from Covered
Software; or

      b. for infringements caused by: (i) Your and any other third
party's
         modifications of Covered Software, or (ii) the combination of
its
         Contributions with other software (except as part of its
Contributor
         Version); or

      c. under Patent Claims infringed by Covered Software in the
absence of its
         Contributions.

   This License does not grant any rights in the trademarks, service
marks, or
   logos of any Contributor (except as may be necessary to comply with
the notice
   requirements in Section 3.4).

   2.4. Subsequent Licenses

   No Contributor makes additional grants as a result of Your choice to
distribute
   the Covered Software under a subsequent version of this License (see
   Section 10.2) or under the terms of a Secondary License (if
permitted under the
   terms of Section 3.3).

   2.5. Representation

   Each Contributor represents that the Contributor believes its

Contributions are
  its original creation(s) or it has sufficient rights to grant the
rights to its
  Contributions conveyed by this License.

  2.6. Fair Use

  This License is not intended to limit any rights You have under
applicable
  copyright doctrines of fair use, fair dealing, or other equivalents.

  2.7. Conditions

  Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses
granted in
  Section 2.1.

3. Responsibilities

  3.1. Distribution of Source Form

  All distribution of Covered Software in Source Code Form, including
any
  Modifications that You create or to which You contribute, must be
under the
  terms of this License. You must inform recipients that the Source
Code Form of
  the Covered Software is governed by the terms of this License, and
how they can obtain a copy of this License. You may not attempt to
alter or restrict the
  recipients' rights in the Source Code Form.

  3.2. Distribution of Executable Form

  If You distribute Covered Software in Executable Form then:

    a. such Covered Software must also be made available in Source
Code Form, as described in Section 3.1, and You must inform recipients
of the Executable
      Form how they can obtain a copy of such Source Code Form by
reasonable
      means in a timely manner, at a charge no more than the cost of
distribution
      to the recipient; and

b. You may distribute such Executable Form under the terms of this
License, or
      sublicense it under different terms, provided that the license
for the
      Executable Form does not attempt to limit or alter the
recipients' rights
      in the Source Code Form under this License.

  3.3. Distribution of a Larger Work

  You may create and distribute a Larger Work under terms of Your
choice,
  provided that You also comply with the requirements of this License
for the
  Covered Software. If the Larger Work is a combination of Covered
Software with
  a work governed by one or more Secondary Licenses, and the Covered
Software is not Incompatible With Secondary Licenses, this License
permits You to
  additionally distribute such Covered Software under the terms of
such Secondary License(s), so that the recipient of the Larger Work
may, at their option, further distribute the Covered Software under
the terms of either this License or such Secondary License(s).

  3.4. Notices

  You may not remove or alter the substance of any license notices
(including
  copyright notices, patent notices, disclaimers of warranty, or
limitations of
  liability) contained within the Source Code Form of the Covered
Software,
  except that You may alter any license notices to the extent required
to remedy
  known factual inaccuracies.

  3.5. Application of Additional Terms

  You may choose to offer, and to charge a fee for, warranty, support,
indemnity
  or liability obligations to one or more recipients of Covered
Software.
  However, You may do so only on Your own behalf, and not on behalf of
any
  Contributor. You must make it absolutely clear that any such
warranty, support,

indemnity, or liability obligation is offered by You alone, and You
hereby
   agree to indemnify every Contributor for any liability incurred by
such
   Contributor as a result of warranty, support, indemnity or liability
terms You
   offer. You may include additional disclaimers of warranty and
limitations of
   liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this
License with
respect to some or all of the Covered Software due to statute,
judicial order, or
regulation then You must: (a) comply with the terms of this License to
the
maximum extent possible; and (b) describe the limitations and the code
they
affect. Such description must be placed in a text file included with
all
distributions of the Covered Software under this License. Except to
the extent
prohibited by statute or regulation, such description must be
sufficiently
detailed for a recipient of ordinary skill to be able to understand
it.

5. Termination

   5.1. The rights granted under this License will terminate
automatically if You
   fail to comply with any of its terms. However, if You become
compliant, then
   the rights granted under this License from a particular Contributor
are
   reinstated (a) provisionally, unless and until such Contributor
explicitly and
   finally terminates Your grants, and (b) on an ongoing basis, if such
   Contributor fails to notify You of the non-compliance by some
reasonable means
   prior to 60 days after You have come back into compliance. Moreover,
Your
   grants from a particular Contributor are reinstated on an ongoing
basis if such

Contributor notifies You of the non-compliance by some reasonable
means, this
   is the first time You have received notice of non-compliance with
this License
   from such Contributor, and You become compliant prior to 30 days
after Your
   receipt of the notice.

   5.2. If You initiate litigation against any entity by asserting a
patent
   infringement claim (excluding declaratory judgment actions, counter-
claims, and
   cross-claims) alleging that a Contributor Version directly or
indirectly
   infringes any patent, then the rights granted to You by any and all
   Contributors for the Covered Software under Section 2.1 of this
License shall
   terminate.

   5.3. In the event of termination under Sections 5.1 or 5.2 above,
all end user
   license agreements (excluding distributors and resellers) which have
been
   validly granted by You or Your distributors under this License prior
to
   termination shall survive termination.

6. Disclaimer of Warranty

Covered Software is provided under this License on an "as is" basis,
without
warranty of any kind, either expressed, implied, or statutory,
including, without
limitation, warranties that the Covered Software is free of defects,
merchantable, fit for a particular purpose or non-infringing. The
entire risk as
to the quality and performance of the Covered Software is with You.
Should any
Covered Software prove defective in any respect, You (not any
Contributor) assume
the cost of any necessary servicing, repair, or correction. This
disclaimer of
warranty constitutes an essential part of this License. No use of any
Covered
Software is authorized under this License except under this
disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort
(including
negligence), contract, or otherwise, shall any Contributor, or anyone
who
distributes Covered Software as permitted above, be liable to You for
any direct,
indirect, special, incidental, or consequential damages of any
character
including, without limitation, damages for lost profits, loss of
goodwill, work
stoppage, computer failure or malfunction, or any and all other
commercial
damages or losses, even if such party shall have been informed of the
possibility
of such damages. This limitation of liability shall not apply to
liability for
death or personal injury resulting from such party's negligence to the
extent
applicable law prohibits such limitation. Some jurisdictions do not
allow the
exclusion or limitation of incidental or consequential damages, so
this exclusion
and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the
courts of a
jurisdiction where the defendant maintains its principal place of
business and
such litigation shall be governed by laws of that jurisdiction,
without reference
to its conflict-of-law provisions. Nothing in this Section shall
prevent a
party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject
matter
hereof. If any provision of this License is held to be unenforceable,
such
provision shall be reformed only to the extent necessary to make it

enforceable.
Any law or regulation which provides that the language of a contract
shall be
construed against the drafter shall not be used to construe this
License against
a Contributor.

10. Versions of the License

10.1. New Versions

  Mozilla Foundation is the license steward. Except as provided in
Section 10.3,
  no one other than the license steward has the right to modify or
publish new
  versions of this License. Each version will be given a
distinguishing version
  number.

10.2. Effect of New Versions

  You may distribute the Covered Software under the terms of the
version of the
  License under which You originally received the Covered Software, or
under the
  terms of any subsequent version published by the license steward.

10.3. Modified Versions

  If you create software not governed by this License, and you want to
create a
  new license for such software, you may create and use a modified
version of
  this License if you rename the license and remove any references to
the name of
  the license steward (except to note that such modified license
differs from
  this License).

10.4. Distributing Source Code Form that is Incompatible With
Secondary
  Licenses

  If You choose to distribute Source Code Form that is Incompatible

With
  Secondary Licenses under the terms of this version of the License,
the notice
  described in Exhibit B of this License must be attached.

Exhibit A - Source Code Form License Notice

  This Source Code Form is subject to the terms of the Mozilla Public
License,
  v. 2.0. If a copy of the MPL was not distributed with this file, You
can
  obtain one at http://mozilla.org/MPL/2.0/.

If it is not possible or desirable to put the notice in a particular
file, then
You may include the notice in a location (such as a LICENSE file in a
relevant
directory) where a recipient would be likely to look for such a
notice.

You may add additional accurate notices of copyright ownership.

Exhibit B - "Incompatible With Secondary Licenses" Notice

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and
distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the
copyright
owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other
entities
that control, are controlled by, or are under common control with that
entity.
For the purposes of this definition, "control" means (i) the power,
direct or
indirect, to cause the direction or management of such entity, whether
by
contract or otherwise, or (ii) ownership of fifty percent (50%) or
more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising
permissions
granted by this License.

"Source" form shall mean the preferred form for making modifications, including
but not limited to software source code, documentation source, and configuration
files.

"Object" form shall mean any form resulting from mechanical transformation or
translation of a Source form, including but not limited to compiled object code,
generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made
available under the License, as indicated by a copyright notice that is included
in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is
based on (or derived from) the Work and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole, an
original work of authorship. For the purposes of this License, Derivative Works
shall not include works that remain separable from, or merely link (or bind by
name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version
of the Work and any modifications or additions to that Work or Derivative Works
thereof, that is intentionally submitted to Licensor for inclusion in the Work by
the copyright owner or by an individual or Legal Entity authorized to submit on
behalf of the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent to the
Licensor or its representatives, including but not limited to communication on
electronic mailing lists, source code control systems, and issue tracking systems
that are managed by, or on behalf of, the Licensor for the purpose of discussing
and improving the Work, but excluding communication that is

conspicuously marked
or otherwise designated in writing by the copyright owner as "Not a
Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of
whom a Contribution has been received by Licensor and subsequently
incorporated
within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
this
License, each Contributor hereby grants to You a perpetual, worldwide,
non-exclusive, no-charge, royalty-free, irrevocable copyright license
to
reproduce, prepare Derivative Works of, publicly display, publicly
perform,
sublicense, and distribute the Work and such Derivative Works in
Source or Object
form.

3. Grant of Patent License. Subject to the terms and conditions of
this License,
each Contributor hereby grants to You a perpetual, worldwide, non-
exclusive,
no-charge, royalty-free, irrevocable (except as stated in this
section) patent
license to make, have made, use, offer to sell, sell, import, and
otherwise
transfer the Work, where such license applies only to those patent
claims
licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with
the Work to
which such Contribution(s) was submitted. If You institute patent
litigation
against any entity (including a cross-claim or counterclaim in a
lawsuit)
alleging that the Work or a Contribution incorporated within the Work
constitutes
direct or contributory patent infringement, then any patent licenses
granted to
You under this License for that Work shall terminate as of the date
such
litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work
or
Derivative Works thereof in any medium, with or without modifications,
and in

Source or Object form, provided that You meet the following
conditions:

   a. You must give any other recipients of the Work or Derivative
Works a copy of
      this License; and

   b. You must cause any modified files to carry prominent notices
stating that
      You changed the files; and

   c. You must retain, in the Source form of any Derivative Works that
You
      distribute, all copyright, patent, trademark, and attribution
notices from
      the Source form of the Work, excluding those notices that do not
pertain to
      any part of the Derivative Works; and

   d. If the Work includes a "NOTICE" text file as part of its
distribution, then
      any Derivative Works that You distribute must include a readable
copy of the
      attribution notices contained within such NOTICE file, excluding
those
      notices that do not pertain to any part of the Derivative Works,
in at least
      one of the following places: within a NOTICE text file distributed
as part of
      the Derivative Works; within the Source form or documentation, if
provided
      along with the Derivative Works; or, within a display generated by
the
      Derivative Works, if and wherever such third-party notices
normally appear.
      The contents of the NOTICE file are for informational purposes
only and do
      not modify the License. You may add Your own attribution notices
within
      Derivative Works that You distribute, alongside or as an addendum
to the
      NOTICE text from the Work, provided that such additional
attribution notices
      cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may
provide additional or different license terms and conditions for use,
reproduction, or distribution of Your modifications, or for any such
Derivative Works as a whole, provided Your use, reproduction, and
distribution of the Work otherwise complies with the conditions stated

in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any
Contribution intentionally submitted for inclusion in the Work by You to the
Licensor shall be under the terms and conditions of this License, without any
additional terms or conditions. Notwithstanding the above, nothing herein shall
supersede or modify the terms of any separate license agreement you may have
executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names,
trademarks, service marks, or product names of the Licensor, except as required
for reasonable and customary use in describing the origin of the Work and
reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS
OF ANY KIND, either express or implied, including, without limitation,
any warranties or conditions of TITLE, NON-INFRINGEMENT,
MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely
responsible for determining the
appropriateness of using or redistributing the Work and assume any risks
associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agreed to in
writing, shall any Contributor be liable to You for damages, including any
direct, indirect, special, incidental, or consequential damages of any character
arising as a result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill, work stoppage,
computer failure or malfunction, or any and all other commercial damages or

losses), even if such Contributor has been advised of the possibility of such
damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations and/or
rights consistent with this License. However, in accepting such obligations, You
may act only on Your own behalf and on Your sole responsibility, not on behalf of
any other Contributor, and only if You agree to indemnify, defend, and hold each
Contributor harmless for any liability incurred by, or claims asserted against,
such Contributor by reason of your accepting any such warranty or additional
liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following boilerplate
notice, with the fields enclosed by brackets "[]" replaced with your own
identifying information. (Don't include the brackets!) The text should be
enclosed in the appropriate comment syntax for the file format. We
also recommend that a file or class name and description of purpose be
included on the same "printed page" as the copyright notice for easier
identification within
third-party archives.

Mozilla Public License 2.0
(AWS SDK for Go v1.17.12)

Mozilla Public License
Version 2.0
======================

1. Definitions

  1.1. "Contributor"

  means each individual or legal entity that creates, contributes to
the creation
  of, or owns Covered Software.

  1.2. "Contributor Version"

  means the combination of the Contributions of others (if any) used

by a
  Contributor and that particular Contributor's Contribution.

  1.3. "Contribution"

  means Covered Software of a particular Contributor.

  1.4. "Covered Software"

  means Source Code Form to which the initial Contributor has attached
the notice
  in Exhibit A, the Executable Form of such Source Code Form, and
Modifications
  of such Source Code Form, in each case including portions thereof.

  1.5. "Incompatible With Secondary Licenses"

  means

    a. that the initial Contributor has attached the notice described
in Exhibit B
      to the Covered Software; or

    b. that the Covered Software was made available under the terms
of version
      1.1 or earlier of the License, but not also under the terms of
a Secondary
      License.

  1.6. "Executable Form"

  means any form of the work other than Source Code Form.

  1.7. "Larger Work"

  means a work that combines Covered Software with other material, in
a separate file or files, that is not Covered Software.

  1.8. "License"

  means this document.

  1.9. "Licensable"

  means having the right to grant, to the maximum extent possible,
whether at the time of the initial grant or subsequently, any and all
of the rights conveyed
  by this License.

  1.10. "Modifications"

means any of the following:

    a. any file in Source Code Form that results from an addition to, deletion
      from, or modification of the contents of Covered Software; or

    b. any new file in Source Code Form that contains any Covered
Software.

  1.11. "Patent Claims" of a Contributor

  means any patent claim(s), including without limitation, method, process, and
  apparatus claims, in any patent Licensable by such Contributor that would be
  infringed, but for the grant of the License, by the making, using, selling,
  offering for sale, having made, import, or transfer of either its Contributions
  or its Contributor Version.

  1.12. "Secondary License"

  means either the GNU General Public License, Version 2.0, the GNU Lesser
  General Public License, Version 2.1, the GNU Affero General Public License,
  Version 3.0, or any later versions of those licenses.

  1.13. "Source Code Form"

  means the form of the work preferred for making modifications.

  1.14. "You" (or "Your")

  means an individual or a legal entity exercising rights under this License. For
  legal entities, "You" includes any entity that controls, is controlled by, or
  is under common control with You. For purposes of this definition, "control"
  means (a) the power, direct or indirect, to cause the direction or management
  of such entity, whether by contract or otherwise, or (b) ownership of more than
  fifty percent (50%) of the outstanding shares or beneficial ownership of such
  entity.

2. License Grants and Conditions

  2.1. Grants

  Each Contributor hereby grants You a world-wide, royalty-free, non-
exclusive
  license:

    a. under intellectual property rights (other than patent or
trademark)
      Licensable by such Contributor to use, reproduce, make
available, modify,
      display, perform, distribute, and otherwise exploit its
Contributions,
      either on an unmodified basis, with Modifications, or as part of
a Larger
      Work; and

    b. under Patent Claims of such Contributor to make, use, sell,
offer for sale,
      have made, import, and otherwise transfer either its
Contributions or its
      Contributor Version.

  2.2. Effective Date

  The licenses granted in Section 2.1 with respect to any Contribution
become
  effective for each Contribution on the date the Contributor first
distributes
  such Contribution.

  2.3. Limitations on Grant Scope

  The licenses granted in this Section 2 are the only rights granted
under this
  License. No additional rights or licenses will be implied from the
distribution
  or licensing of Covered Software under this License. Notwithstanding
  Section 2.1(b) above, no patent license is granted by a Contributor:

    a. for any code that a Contributor has removed from Covered
Software; or

    b. for infringements caused by: (i) Your and any other third

party's
      modifications of Covered Software, or (ii) the combination of
its
      Contributions with other software (except as part of its
Contributor
      Version); or

    c. under Patent Claims infringed by Covered Software in the
absence of its
      Contributions.

  This License does not grant any rights in the trademarks, service
marks, or
  logos of any Contributor (except as may be necessary to comply with
the notice
  requirements in Section 3.4).

  2.4. Subsequent Licenses

  No Contributor makes additional grants as a result of Your choice to
distribute
  the Covered Software under a subsequent version of this License (see
  Section 10.2) or under the terms of a Secondary License (if
permitted under the
  terms of Section 3.3).

  2.5. Representation

  Each Contributor represents that the Contributor believes its
Contributions are
  its original creation(s) or it has sufficient rights to grant the
rights to its
  Contributions conveyed by this License.

  2.6. Fair Use

  This License is not intended to limit any rights You have under
applicable
  copyright doctrines of fair use, fair dealing, or other equivalents.

  2.7. Conditions

  Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses
granted in
  Section 2.1.

3. Responsibilities
‒‒‒‒‒‒‒‒‒‒‒‒‒‒‒‒‒‒‒

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including
any
Modifications that You create or to which You contribute, must be
under the
terms of this License. You must inform recipients that the Source
Code Form of
the Covered Software is governed by the terms of this License, and
how they can obtain a copy of this License. You may not attempt to
alter or restrict the
recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

   a. such Covered Software must also be made available in Source
Code Form, as described in Section 3.1, and You must inform recipients
of the Executable
      Form how they can obtain a copy of such Source Code Form by
reasonable
      means in a timely manner, at a charge no more than the cost of
distribution
      to the recipient; and

   b. You may distribute such Executable Form under the terms of this
License, or
      sublicense it under different terms, provided that the license
for the
      Executable Form does not attempt to limit or alter the
recipients' rights
      in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your
choice,
provided that You also comply with the requirements of this License
for the
Covered Software. If the Larger Work is a combination of Covered
Software with
a work governed by one or more Secondary Licenses, and the Covered

Software is not Incompatible With Secondary Licenses, this License
permits You to
  additionally distribute such Covered Software under the terms of
such Secondary License(s), so that the recipient of the Larger Work
may, at their option, further distribute the Covered Software under
the terms of either this License or such Secondary License(s).

  3.4. Notices

  You may not remove or alter the substance of any license notices
(including
  copyright notices, patent notices, disclaimers of warranty, or
limitations of
  liability) contained within the Source Code Form of the Covered
Software,
  except that You may alter any license notices to the extent required
to remedy
  known factual inaccuracies.

  3.5. Application of Additional Terms

  You may choose to offer, and to charge a fee for, warranty, support,
indemnity
  or liability obligations to one or more recipients of Covered
Software.
  However, You may do so only on Your own behalf, and not on behalf of
any
  Contributor. You must make it absolutely clear that any such
warranty, support,
  indemnity, or liability obligation is offered by You alone, and You
hereby
  agree to indemnify every Contributor for any liability incurred by
such
  Contributor as a result of warranty, support, indemnity or liability
terms You
  offer. You may include additional disclaimers of warranty and
limitations of
  liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this
License with
respect to some or all of the Covered Software due to statute,
judicial order, or
regulation then You must: (a) comply with the terms of this License to

the
maximum extent possible; and (b) describe the limitations and the code
they
affect. Such description must be placed in a text file included with
all
distributions of the Covered Software under this License. Except to
the extent
prohibited by statute or regulation, such description must be
sufficiently
detailed for a recipient of ordinary skill to be able to understand
it.

5. Termination

   5.1. The rights granted under this License will terminate
automatically if You
   fail to comply with any of its terms. However, if You become
compliant, then
   the rights granted under this License from a particular Contributor
are
   reinstated (a) provisionally, unless and until such Contributor
explicitly and
   finally terminates Your grants, and (b) on an ongoing basis, if such
   Contributor fails to notify You of the non-compliance by some
reasonable means
   prior to 60 days after You have come back into compliance. Moreover,
Your
   grants from a particular Contributor are reinstated on an ongoing
basis if such
   Contributor notifies You of the non-compliance by some reasonable
means, this
   is the first time You have received notice of non-compliance with
this License
   from such Contributor, and You become compliant prior to 30 days
after Your
   receipt of the notice.

   5.2. If You initiate litigation against any entity by asserting a
patent
   infringement claim (excluding declaratory judgment actions, counter-
claims, and
   cross-claims) alleging that a Contributor Version directly or
indirectly
   infringes any patent, then the rights granted to You by any and all
   Contributors for the Covered Software under Section 2.1 of this
License shall
   terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above,
all end user
  license agreements (excluding distributors and resellers) which have
been
  validly granted by You or Your distributors under this License prior
to
  termination shall survive termination.

6. Disclaimer of Warranty

Covered Software is provided under this License on an "as is" basis,
without
warranty of any kind, either expressed, implied, or statutory,
including, without
limitation, warranties that the Covered Software is free of defects,
merchantable, fit for a particular purpose or non-infringing. The
entire risk as
to the quality and performance of the Covered Software is with You.
Should any
Covered Software prove defective in any respect, You (not any
Contributor) assume
the cost of any necessary servicing, repair, or correction. This
disclaimer of
warranty constitutes an essential part of this License. No use of any
Covered
Software is authorized under this License except under this
disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort
(including
negligence), contract, or otherwise, shall any Contributor, or anyone
who
distributes Covered Software as permitted above, be liable to You for
any direct,
indirect, special, incidental, or consequential damages of any
character
including, without limitation, damages for lost profits, loss of
goodwill, work
stoppage, computer failure or malfunction, or any and all other
commercial
damages or losses, even if such party shall have been informed of the
possibility
of such damages. This limitation of liability shall not apply to
liability for

death or personal injury resulting from such party's negligence to the
extent
applicable law prohibits such limitation. Some jurisdictions do not
allow the
exclusion or limitation of incidental or consequential damages, so
this exclusion
and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the
courts of a
jurisdiction where the defendant maintains its principal place of
business and
such litigation shall be governed by laws of that jurisdiction,
without reference
to its conflict-of-law provisions. Nothing in this Section shall
prevent a
party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject
matter
hereof. If any provision of this License is held to be unenforceable,
such
provision shall be reformed only to the extent necessary to make it
enforceable.
Any law or regulation which provides that the language of a contract
shall be
construed against the drafter shall not be used to construe this
License against
a Contributor.

10. Versions of the License

  10.1. New Versions

  Mozilla Foundation is the license steward. Except as provided in
Section 10.3,
  no one other than the license steward has the right to modify or
publish new
  versions of this License. Each version will be given a

distinguishing version
  number.

  10.2. Effect of New Versions

  You may distribute the Covered Software under the terms of the
version of the
  License under which You originally received the Covered Software, or
under the
  terms of any subsequent version published by the license steward.

  10.3. Modified Versions

  If you create software not governed by this License, and you want to
create a
  new license for such software, you may create and use a modified
version of
  this License if you rename the license and remove any references to
the name of
  the license steward (except to note that such modified license
differs from
  this License).

  10.4. Distributing Source Code Form that is Incompatible With
Secondary
  Licenses

  If You choose to distribute Source Code Form that is Incompatible
With
  Secondary Licenses under the terms of this version of the License,
the notice
  described in Exhibit B of this License must be attached.

Exhibit A – Source Code Form License Notice

  This Source Code Form is subject to the terms of the Mozilla Public
License,
  v. 2.0. If a copy of the MPL was not distributed with this file, You
can
  obtain one at http://mozilla.org/MPL/2.0/.

If it is not possible or desirable to put the notice in a particular
file, then
You may include the notice in a location (such as a LICENSE file in a
relevant

directory) where a recipient would be likely to look for such a
notice.

You may add additional accurate notices of copyright ownership.

Exhibit B - "Incompatible With Secondary Licenses" Notice

   This Source Code Form is "Incompatible With Secondary Licenses", as
defined
   by the Mozilla Public License, v. 2.0.
